TAHITIAN NONI Juice:  
The Only Noni Juice Backed by Multiple Human Clinical Trials

Tahitian Noni International (TNI) owns and operates the only noni-dedicated research laboratory in the world. Our lab is staffed with leading scientists from all over the globe who have conducted mountains of research and human clinical trials to support TAHITIAN NONI® Juice and its five main claims:

1. **TAHITIAN NONI Juice delivers superior antioxidants that help rid the body of harmful free radicals**

2. **TAHITIAN NONI Juice helps maintain cholesterol at existing healthy levels**

3. **TAHITIAN NONI Juice increases energy**

4. **TAHITIAN NONI Juice supports a healthy cardiovascular system and helps maintain a healthy heart**

5. **TAHITIAN NONI Juice supports joint health**

The number of TNI human clinical trials is fluid and growing. In addition to the studies cited above, TNI has an additional eight large clinical trials either in process or pending. TNI also has unpublished data from more than 42 clinical trials using their finished products or their noni components in topical/personal care applications. TNI continues to perform post-market epidemiology observations and analyses in various global markets.
